Hi Darcy –

Attached are some talking points for communicating with Tribes about the meetings we are planning on Dewey Burdock that Valois put together. There are a couple of sections – info on the purpose of the inform and educate meetings, talking points TAP could use during courtesy calls to the Environmental Directors, and talking points for the formal consultation invitation letter that we will mail out after the inform & educate meetings.

As we discussed this morning, the first order of business tomorrow is to agree on a process for tribal consultation. If we have some time left after that discussion, I thought we could start to talk more about the content for the meetings and for our outreach, and we could use this document to frame that discussion.

Please let us know if you have any questions.

Thanks!

Sarah
